### NOTHING'S MORE IMPORTANT THAN LOVE

I went out walkin' with a friend yesterday  
She was laughin' and smilin' all the way  
I'd come to comfort, she had almost lost her life  
But instead she had a few things to say

She said,  
Nothing's more important than love in the world  
Nothing's more important than love  
When it's all said and done and there's no place to run  
Nothing's more important than love

Cancer got my mother and it almost got me  
No way to know - it might get me yet  
But my body's been rockin' in the love of my friends  
It's a lesson I'll never forget CHORUS

What seemed important just a short time ago  
Seems like nothing - just dust in the wind  
And I thank heaven for each new day of life  
It may seem simple, but I'll say it again CHORUS

For my friend, Cathy Hayward, who taught me about dying well.
